 Size: \varnothing mm 22 25 - Long. mm 115
 EXTRA SLIM - NO WAFFLE

Available colors
 PAG. 18 - 19

Hardness
 HARD SH 58 Inside
 SOFT SH 20-15 Outside

Packaging
 quantity:
 40 x Box

The 790 grip features:
A slimmer design with a reverse waffle and the soft GEL area is present around the full diameter of the grip.

790-240 Black base (**P**)
Size: \varnothing mm 22 25 - Long. mm 115
NO WAFFLE

790-234 Grey base (**P**)
Size: \varnothing mm 22 25 - Long. mm 115
NO WAFFLE

Firm on the inside, Gel Density towards the palm of your hand and medium density on the ends.

In all Triple Density models, the hard density inner tube and the medium density grip ends flanges help towards maximum grip efficiency. Riders are always looking for SOFT GRIPS that don't slip on the bar. The rule in grip design is that the softer the material the more the grip will slip against the bar. Plastiche Cassano is the company that first offered duo density grips to the Motorcycle world and we try to bring new technical solutions to the market as the need arises. So we decided to design an even stronger inner sleeve to help minimize grip - MADE IN ITALY
